WHO WE ARE

Who we are: A high-end security and intelligence firm providing specialized solutions and services that protect your organization in today's dynamic digital environment. We bring value to government and commercial organizations through our unparalleled expertise, advisory, and consulting services, along with innovative technologies. We partner with our clients to build customized solutions that ensure their success.

Mission: Equip our clients to solve tomorrow's most complex security and intelligence problems today.

Vision: To be the company that national security organizations call on to solve their most complex problems, and to create novel solutions to support their specific needs and mission.

CORE COMPETENCIES

- Cloud Architecture and Security
- Cybersecurity
- Industrial Compliance
- Intelligence Services
- Industrial Security Services
- Analytics
- Engineering Services
- Advisory Services
- ICS/SCADA/Cryptography

PAST PERFORMANCE

SERVICE OFFERINGS

Regulatory Services
CMMC, NIST, DITSCAP, DIACAP, CIP, FSO, ICS, SCADA, OT

Risk Mitigation Support
Leveraging proprietary strategic and tactical technology, Insider Threat, Intelligence Services

Operational Services
Red, blue, and purple team, attack simulation, penetration testing, SOC services, ICS, SCADA

Product Development
Support with idea generation to initial design

TOP PARTNERS

SERVICES

ADVISORY SERVICES:
